

HAND CLEANING & CARE

# ONLY THE BEST FOR YOUR SKIN.

## Intensive cleaning and optimal skin protection.

**NEW:** Hand Cleaning Paste and Care combines effective cleaning with the best possible skin protection.

**Cleaning:** Removes various types of dirt and grime while providing very good skin compatibility through the use of natural abrasives.

**Care:** High-quality skin maintenance supports the regeneration of the skin after work.

**HAND CLEANING & CARE**
**Hand Cleaning Paste and Care**  
**Gentle and effective**

Hand cleaning and care with natural abrasives derived from corncob meal combat against heavy soiling (oils, greases, dust and more). Cleans thoroughly and gently on the skin, with a natural lipid-replenishing effect.

bluechem Hand Cleaning Paste and Care consists of high-quality raw materials, which are to a large extent of natural origin. Finely ground corncob meal is used as an abrasive agent, which avoids clogging of the drain. In addition, it contains components of coconut oil, which ensure a good moisturization of the skin after each application.

bluechem Hand Cleaning Paste and Care is pH-neutral (4.1-5.0), silicone- and solvent-free. Thanks to its flow characteristics it is ideally suited for optimum dosing with the pump dispenser "Premium".

**Application**

Economically in use.  
 Apply to dry hands, rub in thoroughly and rinse off with water. Repeat this procedure using the same amount for removal of any stubborn contaminations.

**Application area**

For gentle hand cleaning.

**Consumption**

A dispenser dosage is sufficient for one thorough hand cleaning.

**Container size**
**Hand Cleaning Paste and Care**

Content: 4 L  
 PU/pcs.: 4  
 Art.-No.: 19052

**Optional accessories**
**Pump dispenser "Premium"**
